

South African Flameproof Association

SAFA GENERAL MEETING

Topic:

FUNCTIONAL SAFETY ACCORDING TO IEC 61508/61511

Presented by:

Mr Owen Tavener- Smith

Over twenty seven years of professional experience. For the past twenty years he has been involved in consulting, engineering design and management of safety related systems within the process industry. Currently managing director of exida South Africa and exida partner, he provides training and consulting services based on the IEC functional safety standards mainly within the sub-Saharan African and Middle East regions. Formerly Divisional Manager of the Safety Management Systems group within Honeywell Southern Africa, he was responsible for the strategic direction and operations for the Sub-Saharan African region supplying safety related systems and solutions.
