RSVP:	Please note that the full fee will be charged to members and non-members if registration is not cancelled 48 hours before the function or if delegate is a 'No Show' at the function.

More about the Speakers:

Bruce Fordyce

Bruce Fordyce is a household name in South Africa and is considered to be one of the world's greatest ultra marathon runners. He ran his first Comrades Marathon in 1977

and has since won the Comrades nine times in succession: 1981 - 1990. No other runner in the history of the Comrades has ever achieved this feat. Bruce currently holds the record times for both the up and down run.

Bruce Fordyce is also the world record holder for the 50 mile, which he set in 1983 while running the famous London - Brighton race.

Educated at Woodmead School, Bruce obtained his BA Degree in 1977 and his BA Hons in 1979. During this time at University he was a member of the Wits SRC, and All Sports Council and a Committee Member of the Wits Athletic Club.

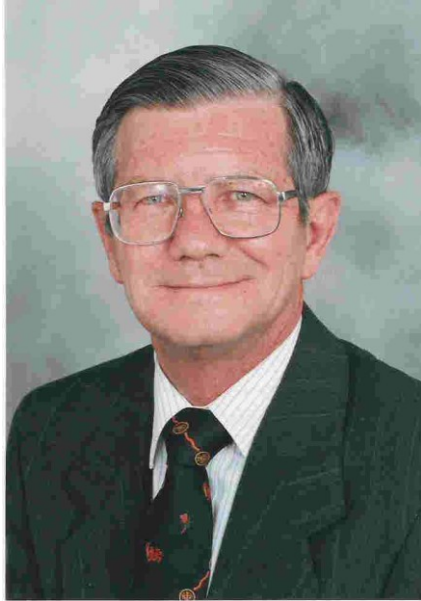

Bruce admits that "genes" do, to some degree, play a part in his running success. Compared to many other runners he would not appear to have the athlete's perfect

build. What then makes Bruce so successful! His attributes epitomise the self-achiever. Beneath a friendly, almost gentle exterior he has a will of iron. Guts, determination perseverance, careful planning and self-discipline are the qualities Bruce relies on to achieve results.

On a day-to-day basis Bruce is involved in endorsements, motivational talks to businesses, sports clubs, schools and charity work. Bruce has delivered talks to most major South African corporations, i.e. Insurance Industry, Car Companies, Computer Industry, Accountants, Pharmaceutical Companies, Estate Agents, Banks, Furniture Trade and the Clothing Industry - to name a few.

Rod Harker

Rod Harker spent 43 with Telkom (Ex Dept of Post and Telecommunications) before he retired in 1999. He started as an apprentice in 1957 and rose up through the ranks to become a Senior Executive on the Management Board of Telkom when it was privatised.

He holds an **MSc degree in Electrical Engineering from the University of Natal** and has an **MBL** from the **UNISA** School of Business Leadership.

Rod is registered with the Engineering Council of South Africa as a **Professional Engineer (1970)**. He is a Council Member of the Engineering Council of South Africa and chairs and serves on numerous ECSA committees.

Rod is a **Fellow** of the SA Institute of Electrical Engineers (SAIEE), a Council Member of the Institute and a Past President of the Institute (1996). He is a **Fellow** of the Institution of

Engineering Technology (IET) (London) and an International Membership Advisor in South Africa.

He has presented and published numerous local and international Technical and Professional papers.

ECSA is a statutory body appointed by the Minister of Public Works.

The presentation will discuss the responsibilities of Engineering Council and the regulation of the Engineering Profession in South Africa.

The importance of Accreditation, Registration, CPD and Identification of Engineering Work to the engineering professional in his work environment will be explained.

This presentation will be of interest to all persons working in the engineering field. If you want to know how regulation of the engineering profession will affect you, this is the presentation to attend
